

Green Class Knowledge Organiser - Summer 1

Pollution makes the ocean dirty and unsafe for animals.

How can we help?

We can recycle

We can pick up litter

We can use less plastic

Ocean Explorers

Our Oceans

- Atlantic Ocean
- Arctic Ocean (coldest)
- Pacific Ocean
- Indian Ocean (warmest)
- Southern Ocean (very cold)

Word Mat

Ocean Explorers

Nouns

ocean
sea
fish
turtle
shark
whale
jellyfish
coral

recycle
help
throw
hunt

Key Vocabulary

Ocean - A very big area of salty water.

Sea - A large area of salty water, smaller than an ocean.

Plastic - a material used to make things like bottles and bags.

Rubbish - things we throw away.

Pollution - when the environment is made dirty and unsafe.

Clean - when something is tidy and safe.

Protect - to keep something safe.

Recycle - to use something again instead of throwing it away.

Deep - very far down.

Coral - hard, colourful structures where sea animals live.
