

Year 4 Ruby - Homework Grid

Summer 1 - 'Let there be light!'

<p>Sketch a lighthouse using the pencil skills we learned in art - stippling, hatching, cross-hatching and blending.</p>	<p>Create your own model lighthouse!</p> <p>Use recycled materials such as cardboard tubes, plastic bottles, yoghurt pots or scrap paper to build your very own lighthouse.</p>	<p>Design your own lighthouse.</p> <p>Think about shape, height, colour and patterns. Can you explain why it looks that way?</p>	<p>Write a poem about a lighthouse.</p> <p>What does it look like? What does the sea sound like around it?</p>
<p>Imagine you lived in a lighthouse!</p> <p>Write a story about your exciting experience.</p>	<p>Who was Grace Darling?</p> <p>Find out who she was and why she is remembered today.</p>	<p>What is a lighthouse keeper's job?</p> <p>Make a list of all the important things they do.</p>	<p>Find out some facts about lighthouses.</p> <p>What are they for? Why were they built?</p>
<p>What is inside a lighthouse?</p> <p>Can you research and label the different compartments?</p>	<p>Write some questions you would like to ask someone who lived in a lighthouse.</p>	<p>Design a maths problem that only a lighthouse keeper could solve! (E.g., measuring distances, timings for light flashes, etc.)</p>	<p>Why are lighthouses all different?</p> <p>Think about how sailors recognise them. Can you explain why each one is unique?</p>

You can choose as many of these tasks as you like. Remember to take photos or bring in any writing to share with the class! If you need a book or some paper to help you record your work, just let your teacher know. Some tasks are a bit more challenging - if you put in great effort, you might even earn extra diddy-dots!

You have all the Easter holidays and up until Monday 19th May 2025 to complete as many as you can!
